# KNOWING WHEN YOUR CHILD IS TOO SICK FOR SCHOOL

## IS YOUR CHILD RUNNING A FEVER?

If your child has a fever, keep them home from school until their temperature has been normal without medication for at least 24 hours.

## IS YOUR CHILD CONTAGIOUS?

Ask the doctor if your child has a contagious illness. The doctor will inform you when your child is no longer contagious.

## ARE THE SYMPTOMS DISRUPTIVE?

Loud and frequent coughing, as well as frequent bathroom breaks, can make it difficult for everyone to concentrate. Keep your child home until symptoms have subsided.

## CAN YOUR CHILD PARTICIPATE?

If your child seems too sluggish and lethargic to pay attention to his or her class lessons, they should be kept home.

# ESTAS MUY ENFERMO PARA IR A LA ESCUELA?

## 4 PREGUNTAS A CONSIDERAR:

### ¿Su Hijo Tiene Fiebre?

Si su hijo tiene fiebre, debe quedarse en casa y no ir a la escuela. Por lo general, una fiebre de más de 100F es un signo de que su hijo puede estar enfermo. Un niño no debe regresar a la escuela hasta al menos 24 horas después de que su temperatura sea normal sin medicamentos.

### ¿Puede su hijo participar en clase?

Si su hijo parece demasiado lento y letárgico para prestar atención a sus lecciones, debe quedarse en casa. El Descanso ayudará a su hijo a recuperarse para que se sienta mejor y listo para aprender nuevamente.

### ¿Tu hijo es contagioso?

Si su hijo está enfermo con una enfermedad que puede ser contagiosa, como inflamación de la garganta o conjuntivitis, deben mantenerse en casa. Esto evitará contagiar a otros estudiantes o incluso volver a infectarse.

### ¿Los síntomas son perjudiciales?

Si su hijo corre al baño y regresa, es probable que no retenga gran parte de sus lecciones. Mantenga a su hijo en casa hasta que los síntomas desaparezcan durante al menos 24 horas.
